Crossroads Series, Crawford

The warm, red clay found exclusively in Indiana is what puts Brampton Brick Crossroads Series in a class all its own. Produced at one of North America’s most technically advanced brick manufacturing facilities, these bricks offer color combinations unique to the area that stand out in any crowd. With rich tones and various textures, Crossroads clay bricks have a more rugged, tumbled appearance. Many of the bricks bear the names of neighbouring counties, honoring both the people and places where the Crossroads Series originates from.
SIZES
